

REMARKS

The Examiner's Office Action has been reviewed.

In response to the requirement for restriction under 35 U.S.C. 122, applicant through his attorney, hereby elects Group II, Claims 7 - 10, drawn to a method of fabricating a toy animal object. This election is made with traverse.

It is urged that a complete search, examination and office action on any one of the embodiments of applicant's invention would require a complete search, examination and office action on all of the embodiments. As a result, it is urged that no additional burden would be placed on the Examiner by withdrawing the requirement to elect and issuing an office action on all of the claims of the instant application. Withdrawal of the requirement to elect is requested.
